How to Allow Popups for elearn.dscc.edu in Internet Explorer

When clicking on a link within your course and the content does not appear, you may have the popup blocker turned on and may receive the message as indicated below. To allow popups in your MyDSCC Online class, you will need to change your popup blocker settings.

To allow the popup, click the yellow bar that appears. When you click on the yellow bar, the menu, shown below, appears.

Click on the “Always Allow Pop-ups from This Site...” link which will prompt the next message, shown below.

Click “Yes”

You should now be ready to view the content within your MyDSCC Online course. You may have to the Online Classes button again before being taken to your online class.

If you have any questions or need further assistance, contact the DSCC Help Desk.
